Mc File No 168 of 1933

General and Revenue Secretariat

Serial No 2384

Concrete proposals have been submitted on this behalf

4 The budget estimates of the mc for 1932-33 and 1933 34 are put up for refee the normal income and expenditure of the mc cl are approx Rs 77000/- and Rs 69004 respy and the mc cl has practically no investment that can be spent on optional works the closing balance falls short of the prescribed minimum by more than Rs 10,000/- Subd for orders,

2284 31-12
295 32 13

JWB 22/12

5 The requests of the mc cl are for (1) for Loans for Water Supply Improvements & the Loan for the Drainage Scheme

(1) Grant of a loan of Rs 3 00 000 at a rate not exceeding 3% interest repayable in 30 annual instalments the loan to be advanced in 6 annual instalments of Rs 50000 e ch

(2) Grant by Govt to the Mcy of a Sum of Rs 75,000 for financing Other improvement works Rs 10 000 Recurring this year

(3) Writing off the balance of the Water Supply & Drainage Loans sanctioned in the GO of 4 4 1925 & 20 12 1929 amounting to Rs 94 750

P & Q

6 The third request does not seem to be possible to grant as the finances of Govt are not such as to admit of foregoing the amounts due to them

7 The second request cannot also be complied with as the annual grant for town improvements made in the budget is only Rs 40,000 & such a large sum as Rs 10 000 cannot be given to one Municipality It is not stated what the improvement works are & what they are estimated to cost for each Details have first to be got worked out by the Mcy

There are no funds available out of this years Grant for any given to this Mcy

Serial No

8 Regarding the last request it is stated that the loan instalment including interest payable annually by Govt will be met from the additional revenue anticipated from revision of assessment & the levy of terminal tax in lieu of octroi & octroi, tax No details are given as to the additional revenue expected as compared with the present The Mcty has perhaps to take action first to improve its resources so as to find funds for the discharge of the annual instalments of the loan

9 Whether the loan of Rs 3 lakhs can be given to the Mcty ~~on the terms proposed~~ on the terms proposed has to be decided in consultation with the Fin Secretary It has been stated by the Fin Secy that the rate of interest on loans granted to local bodies cannot be less than 5½ % The maximum period for repayment of loans allowed so far is 20 years

10 About the financial condition of the Mcty please see the note in para 4 above & also the G O dy 18 & 33 sanctioning the Budget Estimates for the current yea

13) The present financial condition of the Municipality does not justify the grant of a large loan asked for by it and the terms of the loan (interest at 3% and repayable in 30 years) are not acceptable

4) The Municipality should improve its finances and show its ability to repay the loan within a maximum period of 15 years with interest at at least 5½ per cent per annum

15) The proposal to waive the recovery of the balance of loan is also not acceptable financially and there are no special grounds for waiving it

16) As regards the Government grant asked for it has to be stated that this is not possible in the present financial condition Details of works are also not given

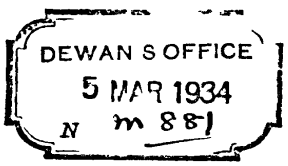
This is included in the request of the Municipality for a loan of Rs 3 lakhs (Vide linked file MR 168 33)

RSM 7/3



Office of the Dewan of Mysore

NOTE

Dated 3rd March 1934

Enclosure 1

~~General~~ Secretary

I had an informal conversation with the Municipal Councillors of Shimoga town on the 25th February when the whole question of the urgent needs of the town was fully discussed They referred to the comprehensive schemes which have been prepared for drainage and water supply to the town and which they said they were unable to undertake for want of adequate resources They have also a scheme for the electric lighting of the town They renewed their request for a loan of Rs 3 lakhs from the Government at 3 per cent interest and repayable in 30 years to finance these and other schemes

I explained to them that in their present condition of th finances and with similar requests from other Municipal Councils pressing for consid ration it was not possible for Government to advance such a large sum to the Municipal Council I suggested to them that they might select the works in the order of their urgency take them up in stages and spread the cost over some years This would obviate the necessity of raising a loan such as they had in contemplation while th strain on municipal finances would b very much less

DEWAN'S MINUTE

FILE No 193

2

GEN & F SCOTT 5 1934 L.B.B.

Such a limited programme should not necessitate a loan of more than a lakh and a half of rupees at the most, for the financing of the works I have told the Municipal Councillors that they might re arrange their programme on the lines indicated by me and send up a revised proposal for a loan of Rs 1½ lakhs giving full details of the schemes propo ed to be taken up their cost the ways and means of meeting it etc The Coun cillors ~~then~~ requested that the loan might be advanced at 4½ per cent in consideration of the present financial position of the Municipal Coun cil I have promised them that the request will be given the best consideration when their proposals are placed before Government

I inspected Shimoga town and observed that the Municipal Council has been taking keen interest in the di charge of its duties Some improvements have already been carried out and som others are in progress On the whole I am inclined to think that the representation of the Municipal Council for financial help from Government in carrying their water supply and drainage schemes into effect deserves sympath tic con ideration

General and Revenue Secretariat | File No of 193 | [App F III 2

67) As regards the ways and means of liquidating the consolidated loan, the Mcl propose to repay the loan in 25 annual instalments by earmarking the additional revenue from (1) Revision of house tax (2) water service fees on account of extra house connections and (3) from the loan instalment of Rs 4300 which is being paid annually and will be released by merging the old loan in the new

68) The receipt of the revised estimate for the drainage scheme may perhaps be awaited before taking any further action on the matter

69) Draft memo subject to para 5 & 8 supra

pm 12/8/35 MM 13/8/35

5) The proposals of the Mcl are —

(1) To obtain a loan of Rs 150000 from Govt repayable in 25 years

(2) To make use of the loan amount as follows —

(a) Rs 75000 for the Water supply improvement

(b) 21 950 for the repayment of the balance of the existing loans

(c) The balance viz Rs 53750 for the Drainage Scheme

5) This will be about Rs 58000 of the existing instalment of the loan for 1934-35

NOTE—C t Sh 2 Three fourths of the revenue is paid from ordinary revenues as proposed in the present for 1935-36 & the balance from the Drainage Scheme

MM

Rhumola 3610 68

File No 168 of 193 3—33 General and [redacted] Secretariat

71 The revised Scheme of Water Supply costing Rs 75,000 has been sent but the Drainage Scheme is not finally prepared yet. It is stated to be under revision by the Bureau of Sanitary Engineering, adopting the open drain system with a Septic tank instead of the Underground system. The Underground Scheme is estimated to cost Rs 2,08,000 and the idea of the Hill is to have a very much less costly Scheme of Open Drains. It is not clear if the cost of the latter will be so small as to enable its being met from the balance of the new loan after providing for the Water Supply scheme & the adjustment of the existing loans. It seems therefore necessary to know definitely what the revised Scheme costs before considering the proposal for the grant of the loan & the ways and means for its repayment. If agreed the Govt will be asked to obtain & forward the revised estimate & plans

charges at 7½ %. As the rate of 12½ % has to be adopted under recent orders the estimate will be increased to Rs 78,750

8) The Director requests immediate sanction for the loan required for the Water Supply Scheme, the balance of the loan being sanctioned after the revised estimate for the Drainage Scheme is received. The Mill wants the period of ~~redemption~~ the loan to be 25 years. Rate of interest is not stated. The ways & means for repayment of the loan & interest are mentioned in para 4 of the Director's letter of 3.8.35 (Flag A). 2806 6/1

2) For orders.

(Asst Secy) 6/11

3) Please speak to me. 11/11

Please note the details of the Ways & means proposed for the repayment of the loan with Commercial references of any kind that the applicant means expects is reasonable. 12/11

The Mill wants a loan of Rs 1,50,000, repayable in 25 annual instalments with interest thereon

Serial No

The annual instalment payable is stated at Rs 12,000 The Board propose to repay the loan from the following sources —

(1) Additional income of Rs 5,000 expected from the revision of house tax It is stated that revision of assessment on houses has been commenced and is under progress, that nearly 200 new houses have sprung up in the town

(2) Additional revenue of Rs 3 000 expected to be realised from water service fees It is stated that with the improvement of water supply, more house connections are expected to be taken

(3) Loan instalments of Rs 4300, which is now being paid annually and which will be released by merging the old loan in the new one

(5) Land rate is worked in the explanatory memo accompanying the budget estimates of the

WD 03594—GPB—30 000— 7 35

Kerala

File No 1993 of 193 Sec

Shunya regarding the current year, wherein it is stated that increased provisions as compared with revised estimates have been made under the heads 'Taxes on buildings' and under 'Taxes' in the budget estimates, in view of the fact that more than 150 new houses have sprung up in the town. Apart from this, there are no other references to show that the additional income expected is realisable

16/11 16/11 Q7 Revision of Assessment on houses

The estimated increase under 'Taxes on houses & lands' for 1935-36 is Rs 12,500. This includes the extra income on account of the new houses that have sprung up in the town. An increase of not more than 30% can be expected by revision of assessment in proper cases. Taking the amount of assessment under revision at Rs 11,110 (revised estimate for 1934-35), the increase may be estimated at about Rs 3500. Thus, the total increase under the head may come to Rs 5000 as anticipated by the Hon'ble, but the increase over the budget estimate for 1935-36 will be only Rs 3500

18

1933

Serial No

88 Water Service Fees

The income estimated under this head for the current year budget is Rs 9460, against the actuals of Rs 7702 for 1933 34 and the revised estimate of Rs 9065 for 1934-35 An additional revenue of Rs 3000 is stated to be expected from this source, but it is not clear if this is in addition to the said provision of Rs 9460

89 Loan Instalment

The amount now being paid on this account on the existing loans will be released, as the latter are merged in the new loan, as stated by the Dy Chief

90 The finances of the Municipality are however unsatisfactory the closing balance estimated for the current year is Rs 5720 against the prescribed balance of Rs 19 150 Strictly any improvement in revenue should go to make up the prescribed working balance But some relaxation of this rule seems necessary in this case in view of the important measures touching the welfare of the townspeople which are under contemplation

1993

Serial No

The proposal is to sanction an estimate for Rs 78 750 for the improvement of water supply to Shimoga Town and to sanction a loan of Rs 78 750 (about Rs 790 to the Shimoga Town Municipality for meeting the cost of the above work. If a loan is to be given to a Local Body it should carry interest at at least 5½% and should be repaid in not more than 15 annual instalments. For repaying a loan of Rs 79 000 in 15 annual instalments with interest at 5½% the Municipality has to set apart every year Rs 7 870 from its normal revenues (towards principal and interest)

94 From the Budget estimates of the Shimoga Town Municipality for 1935 36 it will be seen that its financial condition is very unsatisfactory and its closing balance is practically negligible there is very little margin between normal revenue and normal expenditure and that the Municipality is not in a position to repay Rs 21 250 being the balance of loan due to Government and has been asking for the recovery of the loan being waived. It is stated that an extra revenue of Rs 5 000 under House Tax and of Rs 2 500 to Rs 3 000 under Water fees is anticipated. From the note of the Assistant Secretary L S G Branch it will be seen that the maximum extra revenue which can be anticipated under House Tax (over that taken in the Budget for 1935 36) will be only

WD 0 —GPB—80 000—18-7-35

Rs 3 500 The population of Shimoga town is 20 661 (11 056 males and 9 605 females) and the revenue under water connection fees taken in the Budget for 1935 36 viz Rs 9460 works up to very nearly 0 8 0 per head of population and the prospect of realising further extra revenue particularly to a large extent is very doubtful.

(15) The Municipality is now incurring an expenditure of about Rs 19 000 towards maintenance charges of water supply and it is not known what extra expenditure will have to be incurred by them after the present work is completed In the estimate for the electrification of Shimoga town it has been taken that the Municipality will pay about Rs 9 000 towards power charges for the water supply ~~It~~ Whether this amount is included in the present maintenance charges or whether the latter have to be increased is not clear Information on this point has to be called for

(16) The electrification of Shimoga town has already been sanctioned and the Municipality is required to meet extra expenditure on account of street lighting charges Before the present scheme which is for the improvement of the water supply is sanctioned it is necessary to know definitely whether the Municipality will be able to meet an extra expenditure of Rs 7 870 towards the loan in addition to meeting the dues to the electric department loan already taken from Government other existing commitments and increased maintenance charges if any

Shimoga Town Improvements

Serial No

105) It is reported that the present annual expenditure of about Rs 19000 on account of the maintenance charges of the water supply is expected to be increased by about Rs 8000 after the water works (pumping stations) at Shimoga are electrified

106) The additional expenditure of Rs 13,280 to be incurred on account of the electrification of the water works as well as the Town, together with the sum of Rs 7870 required for repayment of the proposed loans, aggregating Rs 21,150 is proposed to be met by the net income which from the extra income of Rs 15000 as indicated in the P & D, the balance of Rs 6150 being met by the increase of Rs 10,000 anticipated by the levy of the terminal tax in lieu of the existing octroi duty

107) As an alternative proposal it is proposed that the annual net-almost towards the repayment of the loans may be fixed as low as possible so as to be easily met out of the

SIR

In enclosing herewith a copy of letter No 410/33-34 dated 29th November 33 received from the President Shimoga Town Municipal Council I have the honour to state that with a view to improve the surface drainage in the old town of Shimoga the Municipal Council of Shimoga Town Municipality have in their meeting held on the 25th November 33 passed a resolution that a loan of Rs 3 00 000/- may be taken from Government for the purpose the loan amount being repayable in 30 annual instalments with an interest at not exceeding three per cent on the balance outstanding at the end of each year

Out of this sum the Municipal Council propose to utilise Rs 2 08 000/- for providing under-ground drainage to the Town as per project prepared by the Director of Public Health and the remaining sum of Rs 92 000/- for the improvement of water supply in the town They have further resolved to move the Government to write off the balance of the two existing loans amounting to Rs 4 750/- as detailed in the margin as the storm water drainage scheme put the Municipality to a great loss The Council propose that the amount

i) Rs 18750/- out of the loan of 25000 sanctioned for improvement of water supply in G O 27047-50/II 10-24-27 dated 4th April 192
ii) 5000/- out of Rs 15000/- sanctioned as drainage loan in G O I 3007-9/II 127-27-3 dated 20-12-192

amount required for repayment of the proposed loan of Rs 3 00 000 will be made available by the revision of Housetax and the levy of terminal tax in lieu of the octroi and the Sanitary Cess in the town

They propose that the loan amount asked for may be advanced to the Municipality in six annual instalments of Rs 50 000/- each The Council also request for an out_right grant of Rs 75 000/- from Government to finance other improvement works on hand a sum of Rs 10 000/- being granted for this year

In these circumstance I request you to be so good as to obtain sanction of Government to the proposals of the Council as the improvement of the town in the several directions indicated is most urgently called for

A copy of the resolution passed by the Council in these matters is herewith submitted for reference

I have the honour to be
Sir
your most obedient servant

T.C. Dwarkanath 7/12
Deputy Commissioner
Shimoga District

CCC

Letter No 410/33-34 dated 29th ovember 33 from the President Shimoga Town Municipal Council Shimoga to the Deputy Commissioner Shimoga District

I have the honour to state that the matter of improving the surface drainage in the old town of Shimoga is engaging consideration of the Mun cipal Council and the Government from the year 1910, when the proposals of the Chief Engineer in the matter were generally approved by the Government in their Order No 1118-2C-89-0-8 dated 2nd October 1910 Side by side with this there was the question of supplying filter water to the town and the improvement of water work The latter was taken up and worked out from time to time for which the Government were pleased to grant a moiety cost of the original timate of R 1 02 C22/- and the one-third cost of the improvement estimate of R 75 000/- advancing a loan of -

27000/-	@ 4% interest -	G O 1338/11 S 08-17 dated 6-8-1909
20000/-	@ 6%	22/18-10-1921
2 000/-	@ 5%	G O No 2704- 1/11 10-24-27 3/4-4-2

The Municipality have paid up the first two loans of R 47 000/ in full and C250/- out of the third loan of @ 000/

The Director of Health has sent up an timate for @ 08 000/- for providing under-ground drainage to the town and the Municipal Council are eager to provide these drains in the town The council have passed a resolution praying that the Government may be pleased to grant a loan of three lakh of rupees for this purpose repayable at 30 annual instalments with an interest at not exceeding three per cent payable on the balance outstanding at the end of each year The loan amount may be made available to be drawn in six years at the rate of @ 0 000/ a year The council also request that a grant of R 75000/- for this purpose may be made in order that they may find necessary funds for the other improvement work on hand

The Managing Committee to whom the question was referred

to

to for detailed examination of the subject have recommended that the balance of the two existing loans amounting to Rs 24 750/- may be written off as the storm water drainage scheme put the Municipality to a great loss and that the amount required for repayment of the proposed loan of Rs 3 00 000/- will be made available by the revision of House-tax and the levy of terminal tax in lieu of the Octroi and the introduction of the levy of sanitary Cess in the Town These proposalshave been accepted by the Council at their meeting held on 2 th November 33 A copy of the resolution is submitted herewith for reference

Under these circumstances I request you to be so good as to move the Government for favour of kindly sanctioning the loan of 3 00 000/- and the outright grant of Rs 3 000/- for the improvement of the sanitation etc of the Town

For the current year a sum of Rs 10 000/- may be given to this Municipality as an out-right grant for enabling the starting of the drainage scheme

-- -

18750/-	Out of Rs 2 000/- referred to in para 1 above
6000/-	Out of Rs 15 000/- drainage loan as per G O No
	H 3607-9/M1 127-27-3 dated 20-12-27

SIR

In forwarding herewith a copy of letter No 99/34-35 dated 6th instant received from the President Shimoga Town Municipal Council I have the honour to state that in view of the fact that the Municipality has not been favoured with any Town Improvement Grant for the last 4 years and it has to finance with its limited resources the marginally noted schemes the council have in their meeting held on the 25th April 1934 resolved that the Government may kindly be requested to write off the balance of the amount of two loans still due by the Municipality to the extent of Rs 24 750/- as noted in the margin

1. Improvement of Water supply
2. Drainage Scheme
3. Electrification of the town

1	Water supply loan	Rs 18 750/-
2	Drainage "	Rs 6 000/-
		Rs 24 750/-

During the visit of the Dewan to Shimoga during February last the question of remitting the loan amount was urged by some of the Municipal Councillors and in reply he was pleased to observe that the request for remission of the loan amount is not feasible and suggested that if a request is made for increasing the number of instalments and reducing the rate of interest it would be considered by Government In these circumstances I recommend that Government may be pleased to sanction the repayment of the balance of loan amount in 25 annual instalments with suitable reduction in the rate of interest.

A copy of the resolution passed by the Council is enclosed for reference

SIR

With reference to your letter No Camp L 38/ 1 168 33 dated 24th October 1934 calling for revised proposals in regard to the schemes of Town Improvement proposed to be taken up by the Shimoga Town Muncipal Council limiting the loan to be taken from Government to 1½ lakhs I have the honour to state that the President, Shimoga Muncipal Council has reported in his letter No E 71 dated 24 7 1935 that the works of improvement of outstanding importance that are to be taken up urgently are in respect of Water supply and Drainage As regards the question of Water Supply he states that originally the Water supply scheme was designed to supply water for about 250 street taps and to a population of 13 000 that the Population of the Town having increased in recent years by more than 50% the demand for private taps has also enormously increased with the result that it has not been possible to meet it on account of the low capacity of the existing pump set and the Storage tanks so much so that during Summer there will not be sufficient water in the existing taps and complaints from the Ratepayers have become more frequent and numerous that it has not been possible to ensure a proper supply of water even to the Civil Hospital which has been recently shifted to the New buildings and that therefore the improvement of the existing system of Water supply is urgently called for and is the first in the order of urgency

The President states that an estimate for Rs 1 50 000/ was originally prepared by the Bureau of Sanitary Engineering for the purpose but that the estimate being too elaborate and incapable of being financed immediately by the Muncipality even after raising a loan it has been got revised to Rs 75000/- so as to provide for the absolute needs of the Town in this respect that this estimate provides for the construction of an elevated tank of sufficient capacity and the laying of the main from the pumping Station to the tank and from the tank to the distributing main and also for the purchase of an electric pumping set that the Sanitary Engineer is of opinion that these items of improvement are essential and urgently called for in case the Water Supply should answer the present needs of the Town and that further improvements in the Pipe line may be effected later on as funds permit. The President explains that the purchase of an Electric pumping set has been provided for in the view of the fact that Shimoga Town is going to be electrified shortly

As regards the Drainage Scheme the President of the Muncipal Council states that this comes next in importance that for this purpose an estimate for Rs 2 08 000/- has been prepared by the Engineering Department for providing underground drainage that the estimate is however considered to be very costly and not suitable as it cannot be worked out in stages with the balance of the loan amount that will be at the disposal of the Muncipality after meeting the cost of improving the Water Supply that as the Council is of opinion that the open Drainage Scheme with a sceptic tank is more suitable to Shimoga than underground drainage action has been taken to have this estimate also revised in consultation with the Sanitary Departmen

so as to bring down the expenditure with due regard to the adaptability of the scheme to local conditions that the balance of the loan amount that will remain after meeting the cost of improving the water Supply and adjusting the old loan is proposed to be utilised for drainage

5 The Muncipal President states that in case the loan is sanctioned by Government the balance of the loan viz Rs 21 250/ due to Government out of the previous loan anctioned for the Water supply and Drainage schemes will be immediately adjusted and arrangements made to have only one consolidated loan

6 As regards the ways and means of liquidating this consolidated loan the President intimates that the Council propose to repay the loan in 25 annual instalments that if the proposal of the Council is sanctioned the instalment with interest that will have to be paid by the Muncipality will be about Rs 12 000/- per annum that revision of assessment on houses has been commenced and is under progress that nearly 200 new houses have sprung up in the Town and action has been taken to levy Mohatarfa thereon during the current year that as a result of the revision of the House Tax an additional income of Rs 5000/- as a minimum is expected to be derived that the improvement in Water Supply it is expected that more house connections will be taken and that considering the present demand for house connections an additional revenue of Rs 2500/ or Rs 3000/ is expected to be realised under Water service fees that these additional sources of revenue together with the loan instalment of Rs 4300/ that is being paid annually and will be released

by merging the old loan in the new are proposed to be set apart for payment of instalments towards the new loan (vide copy of the Council s resolution enclosed)

5 The President requests that under these circumstances a loan of Rs 1 50 000/- may be sanctioned by Government so that the Water Supply and Drainage Schemes may be taken on hand immediately

6 Letter No 2621 dated 15 4-1935 and its enclosures in original received from the Sanitary Engineer furnishing the estimate for improving the Water Supply is enclosed As regards the Drainage estimate the Sanitary Engineer has been addressed by the Muncipality to revise it and on receipt of the revised estimate from him it will be obtained and sent I request that in these circumstances sanction of Government may be kindly granted to the loans applied for

I have the honour to be
Sir
Your most obedient servant

Enclosure No

Sir

With refer nce o corre pondence ending ith your letter lo L 1800 dated 7th Septe ber 1935 regarding the loan of one and half la hs of rupees (Rs 1½ lakhs) asked for by the Shimoga Luncipa ity for the drainage scheme and improvements to the w er supply I have the honour to tate that the revised project for the open drainage i stated to be under prepara ion by the Bureau of anitary Engineering h President of the uncipal Council reports in his letter o Gl 0996 dated 20th October 1 35 that he Sanitary Engineer has been requested to expedite its forwardal so that the question may be con dered by the uncipal Council and definite propo als ubmitted to Covernment early Apart from this the rc ident states that the improvements to the existing ater supply is immediately ne essary as a portion of Electric energy that b comes available in Shimoga own consequent on the Electatrification of the place ha been propos d to be utilised for the water wor s to make up the guarantee nd requests that early action may be accorded to the loan already applied for o a

to enable the Council to take up the work and comp
well within time

The work of Electrification in Shimoga Town has already been started and is in progress It is understood as matters stands at present it will be completed by about the middle of January and that energy will be turned on immediately thereafter It is necessary that the improvemen to the water supply of the Town already referred to in my letter No Mgl 450-73 dated 2 8 35 should be carried out expeditiously as it forms a part of the scheme for the electrification of Shimoga Town

I therefore beg to recommend once again that the loan applied for by the Municipality may be sanctioned immediately and the Sanitary Department directed to undertake the work and complete it early If the whole amount of the loan cannot be sanctioned pending submission of the revised estimate for the drainage work a portion of it equal to the cost of the estimate for the improvements to the water works viz Rs 75000/ may at least be sanctioned and the balance sanctioned later on after the submission of the estimate awaited from the Sanitary Department Recently the Director of Public Health visited this place and I had a discussion with him regarding the subject He indicated to expedite the revised proposal by deputing one of the assistants on his staff to get first hand knowledge of the locality and prepare a suitable scheme

I have the honour to be

every year by 7 8 % from 15 normal
revenues (towards principal and interest)

2 The mpty is now incurring
an expenditure of about Rs 19,000 towards
maintenance charges of water supply and
it is not known what extra expenditure
will have to be incurred by them after
the present work is completed In the
estimate for the electrification of Shivaji Times,
it has been taken that the mpty will
pay about Rs 9000 towards power charges for
the water supply whether this amount
is included in the present maintenance--
charges or whether the latter have to be
increased is not clear

3 ~~Now that~~ The electrification of
the Shivaji Tower has already been sanctioned, and
the mpty is required to meet extra
expenditure on account of street lighting
charges, Before the present scheme for
improvement of the water supply is sanctioned
it is necessary to know definitely what the
extra revenue expected from revision of assessment & water fees over above
the provision made in the current years budget estimate will be (and the date on which the higher are to be charged) and whether

the supply will be able to meet
an extra annual expenditure of £ 7870
towards the proposed loan, in addition
to meeting the dues to the Electric
Dept, loan already taken from
fund, other existing commitments
and increased maintenance charges,
if any From the available
information, the capacity of the
Supply, in its present financial
condition, to meet the extra expenditure
referred to appears to be very doubtful
I am to request that a further
report may be forwarded on the
points raised above

The estimate for the water supply scheme
is enclosed for reference and return when

To

The Deputy Commissioner
Shimoga District

Sir

With reference to the correspondence ending with your letter No 3 C 450 73 dated 4th November 1935 re the revised proposals of the Shimoga Town Municipality in regard to the schemes of Town Improvement proposed to be taken up by the Municipal Council I am directed to state that the estimate for the improvement of water supply to the town will amount to Rs 78 750, calculating the Establishment, tools and plant charges at 12½ under recent orders For repayment of a loan of Rs 78 750 (about Rs 79000) in 15 annual instalments with interest at 5½, the municipality has to set apart every year Rs 7870 from its normal revenues (towards principal and interest)

2 The Municipality is now incurring an expenditure of about Rs 19 000 towards maintenance charges of water supply and it is not known what extra expenditure will have to be incurred by them after the present work is completed In the estimate for the electrification of Shimoga Town it has been taken that the Municipality will pay about Rs 9000 towards power charges for the water supply Whether this amount is included in the present maintenance charges or whether the latter have to be increased is not clear

3 The electrification of the Shimog Town has already been sanctioned and the Municipality is required to meet extra expenditure on account of street lighting charges Before the present scheme for improvement of the water supply is sanctioned it is necessary to know definitely what the extra revenue expected from revision of assessment and water fees over and above the provision made in the current year s budget estimates will be (with the data

on which the figures are based)and whether the municipality will be able to meet an extra annual expenditure of Rs 7870 towards the proposed loan in addition to meeting the dues to the Electric Department loan already taken from Government other existing commitments and increased maintenance charges if any From the available information the capacity of the municipality in its present financial condition to meet the extra expenditure referred to appears to be very doubtful I am to request that a further report may be forwarded on the points raised above

The estimate for the water supply scheme is sent herewith for reference and resubmission

Bangalore

SIR

With reference to your letter No L 4818/M1 168 33 8 dated 26/27th December 1935 regarding the grant of loan for the proposed improvements to the ater Supply to Shimoga Town I have th honour to state that the unicipal President has in his letter lo 1611/35-36 dated 14-5 1936 stated that by the Electrification of the Water work as well as the Town an additional expenditure of Rs 13 280/- would have to be incurred

Rs 8000/-	Water Supply
Rs 5280/-	Lighting
Rs 13 280/-	

which with the sum of Rs 7370/- required for repayment of the proposed loan as per Para 1 of your l tter under reply works out to Rs 21 150/ and that this amount w uld be arranged to be paid by the Luncipal Council from the extra income expected by them under the items noted b low

(1)	Additional income expected under tax on buildings & lands by the revision of assessment	5000/
(2)	Water tax at 50% on the above	2500/
(3)	Collection of lighting tax at 25% of House tax for which provi ion has already been made in the exi ting sanctioned rules of the unicipality	4000/
(4)	Additional R venue by giving Water service connections to houses	3000/
(5)	Income from Market Fees etc (Bye laws for levy of rent in the lew Market have been framed & are under consideration of the Council)	P 500/
		R 15 000/

The balance of Rs 6150/ which would be required to make up Rs 21 150/- would be met by the increase of Rs 19000/- anticipated by the levy of the terminal tax hould be sanctioned in lieu of the existing levy of Octroi duty With regard to the revision of House Tax it is ascertained that the revision in three of the Divisions in the Town has been completed and that of the Fourth Division is under progress The revision list may be expected to be ready by about a month for the approval of the Municipal Council

2 As an alternate proposal it is proposed that the annual instalment towards the repayment of the loan may be fixed as low as possible so as to be easily met out of the normal income by extending the period of repayment from 15 to 25 or 30 years The Municipal President also suggests that savings to an extent of R 1385/- can be effected by curtailing some of the items of expenditure now incurred by the Municipal Council

3 In view of the urgency of the improvement to the Water Works and the fact that it forms part of the Scheme for Electrification of the Shimoga Town I request that early sanction of Government may be kindly obtained to grant the loan prayed for by the Municipality the same being made repayable in easy instalments It is understood

It is understood that thepresent plant may breal down at any moment causing great inconvenience to the Public and it is therefore necessary that he Water Supply Scheme should be taken up as earlv as possible If the period for repayn nt of the loan is extended th re is not lil ly to be any difficulty in repaying it

4 The unicipal Presiden s letter /ith its enclo ures is enclosed for reference

Abstract estimate for Revised proposals to... to the present needs of Shemoga water work

V	Item of work	Unit	Rate Rs	Rate p	Quantity	Cost Rs
(1)	Cost of one Electric pumping Set with a capacity of about 400 gallons per minute or 24 000 gallons per hour against 300 ft head —	each			Rs	500
(2)	Cost of laying one 7 C I Rising main from the P S to the Elevated Tank utilizing the present 7 pipes —	each			Rs	200
(3)	Cost of laying one 9 C I main from the elevated tank to the destribution mains	each			Rs	200
(4)	Cost of a Pressed Steel Elevated Tank of 200000 gallons					

Carried over

I tt r to S E 4789 dat d 21/22nd Anril 1936 fr m the Sanitary Engin er Bureau of Sanitary Engineering Bangalor to the Pr sident To n Municinal Council Shimoga

---

7ith reference t your o 1022/35 36 dated 16th January 1936 I have the honour to state that the electrifying the pumping sta ion at himoga th Municioality are not going save anything in the annual maintenance expenditure but on the other hand they may have to spend more as is ho n below

Taking the present H P viz (66 H P) of the engine the cost of the electric power consumed at th averege rate of 6 of n anna per unit may amount to about Rs 14 000/ per year considering th working hours to b about 22 h reas at present a sum of R 4 200/ only is being s ent on fuel per v ar but th r will be savings under other items as detailed b lo -

		Savings exp cted per year
1	Staff at pum ing tation	Rs 1000/
2	Town staff	nil
3	Misc stores	1000/
4	R pairs	1000/
5	Tools and plant charges	nil
6	Fu l	3000/
	Total	R 6000/

Therefore the net excess will be about R 8000/ per y ar in the nnual maintenance e timate

It is not understood ho you h ve b en con idering that th re would be savings in th annual ma nt nance e tim t b electrifying th st tion

To The Asst Engineer Sangola

Sir,

With reference to the correspondence ending with your letter No M 3 C 450-73/34-35 dt 28-6-36 regarding the execution of the schemes of improvement to Sangola Town, I am directed to state that at first consideration that the question of giving a loan of Rs 1½ Lakhs to the Municipality for taking up the improvement works may be deferred until it improves its income and affords tangible proof of its repaying capacity.

I may add that the water supply scheme will be dealt with separately.
